SHADY LAWN NURSERY
Hammonton, N. J.

Take Route 39 (Cement road to Trenton). We are one mile left of White Horse Pike on Route 39.

We are half way between Atlantic City and Philadelphia. 95 miles below New York City, on Route 39.
Open Sundays.

Foreword

Thirty years of faithful service to an ever increasing clientele enables us to give you the best in quality for the least possible price. Consistent with prompt, proper service and satisfaction to more than 25,000 patrons we now so proudly possess as friends.

In the event of an error, we always make good without hesitation. Weather may prevent immediate shipments, as we dig and forward only fresh stock. Letters of commendation from our patrons prove our good judgment. Not a mercenary the writer loves the chosen line and has spent many years among Orchids, Tropical plants and specializes in out door plant life.

Will cheerfully give or forward advice on any subject in connection with this business, and without charge.

Visitors are always welcome and the privilege of making personal choice of plants. You will find no high pressure salesmanship here, but rather a congenial atmosphere as lovers of plant life delight in.

We have thirty acres in plants and bulbs, and assure you a visit to our nursery will be one you will remember.

May we both have the mutual pleasure of a personal meeting or communication with each other at an early date.

Cordially yours,
Shady Lawn Nursery,
HUGO KIND.

Mosquito Plant

Quantity Price

MOSQUITO PLANT (*Vincetoxum*), or Cruel

Plant. There are but two species known in America. A hardy plant that will grow anywhere. Derived its name from the fact that when an insect seeks its sweet fluid it becomes a prisoner. Of course it is not an insect eradicator. Very odd and a study for the plant lover. Ultimate height—one foot. The small, star-shaped, white flowers appear in clusters of four or five at the terminax of each leaf. The leaves are small and a shiny emerald green of heavy texture. Very graceful and an artistic cut flower for unique effect. Botanist Bassett, who died twenty years ago at the age of ninety, brought this plant into cultivation. Its origin is obscure. The plant has no bad habits and remains in one place without transplanting. Propagation by dividing.

During the half century of propagation we have a nice stock to offer. 2 large flowering clumps.. (8 for \$3.00)

2 1.00

NUT TREES

- Butternut**, 5 ft..... 1 1.00
- Hazel Nut.** Prefers shade, 2 ft..... 2 1.00

	Quantity	Price
PASSION PLANT (vine), beautiful blue flowers. Heavy plants.....	2	1.00
This vine may be set outdoors in early Spring. It will flower all Summer. Though half hardy it will stand outdoors with protection. The pretty blue water lily-like flowers plainly show the following theological facts: The ten apostles, omitting Peter and Judas, the traitors; the crown of thorns by the massive filaments; the stamens are five, suggesting the five wounds; above these rise the three nails; the curling tendrils represent the scourges; the digitate leaves, the head of a lance.		
PEA BUSH. Sweet pea flowers, yellow. Beautiful foliage. Flowers in July. 3 to 4 ft. Ult. 6 ft. Upright grower.....	1	1.00
PEACH , flowering, double flowers like roses, choice of red, pink or white, 3 ft. Ult. 10 ft.....	2	1.00
